SECTION FOR CLINICAL BIOMETRICS  
Head: Prof. Georg Heinze

## 25th Anniversary Symposium of the Section for Clinical Biometrics

Thursday, April 14, 2016, 9-13h  
Medical University of Vienna  
Jugendstilhörsaal BT88.02  
Spitalgasse 23, 1090 Wien

On the occasion of its 25th anniversary, the Section for Clinical Biometrics cordially invites you to its Silver Jubilee Symposium taking place on April 14, 2016, 9 a.m. – 1 p.m., in the *Jugendstilhörsaal*, BT88. The Section has always been intrinsically tied to the person of **Professor Michael Schemper**, who retired by November 2015. Therefore, we are pleased to announce invited talks of six of Michael Schemper's international collaborators, including:

- Robin Henderson, Newcastle, UK
- Samo Wakounig, Klagenfurt, A
- Alessandra Nardi, Rome, I
- Stefan Michiels, Villejuif, F
- Stephan Lehr, Vienna, A, and
- Janez Stare, Ljubljana, SLO.

Registration and opening of the symposium will take place at 9 am. The Symposium will be followed by a buffet at 1pm, a hiking tour in the Vienna woods starting at approx. 2 p.m., and dinner at a Heurigen at Grinzing (typical Viennese vineyard) at approx. 6 p.m. (service charge ca. 30€, payable on site).

We ask for online reservation at <http://tinyurl.com/25years-of-biometrics> for the symposium, the hike and/or the Heurigen until April 4th, 2016.

---

# 25th Anniversary Symposium of the Section for Clinical Biometrics

## Programme

9.00 – 9.20	<i>Registration and Get Together</i>	
9.20 – 9.30	Georg Heinze	Welcome Address
9.30 – 10.00	Robin Henderson	Influence and Survival Time Summaries
10.00 – 10.25	Samo Wakounig	Motivational Orientation Development of High Achieving Students at a Secondary Technical School
10.25 – 10.55	Alessandra Nardi	Outliers Matter (in Survival Analysis)
10.55 – 11.25	<i>Coffee Break</i>	
11.25 – 11.55	Stefan Michiels	Gene Signatures in Clinical Trials in Oncology
11.55 – 12.20	Stephan Lehr	Overfitting
12.20 – 12.50	Janez Stare	Michael Schemper's Influence on Biostatistics in Ljubljana
13.00 – 14.00	<i>Buffet</i>
